

9th October Utkarsh Android Test Build

This build is connected to Utkarsh Publish server.

Please see below things are in this build.

1. Test Generator -- in app

2. PDF opening inside App with correct format

Publishing Desk:

While uploading PDF

1. Click on Reading Material under Upload Resources
2. Upload the resource
3. Give resource name
4. Select Render as PDF -- yes
5. Select Allow Download -- no

3. Notes Associated to Video

Notes can now be associated to a Video

Publishing Desk:

1. Upload notes.
2. Select Associate it with video from Associate Video Dropdown
3. Upload Video
4. Copy the notes Resource Id
5. Edit the video
6. Paste Notes Resource Id in the Notes Res Id field
7. Now the particular notes resource is associated with the particular video resource
8. **Notes and video resource which are to be associated, should be in same chapter**

App:

1. The Notes that are associated with a video of that same chapter, will not be visible to the user in the Chapter Details page in the app, as Reading Material.
2. A Notes button will be shown in the Video List Item inside Chapter Details Page Only.
3. A Notes button will be shown in the Media Player page when the user opens the Video which has Associated Notes.
4. Notes Button will be accessible after Video End Time. If a user clicks on Notes before Video End Time, a message will be shown, like it is shown for Download Video.
5. Before Video Start Time Notes Button will not be shown in Chapter Details Page. It will be shown after the Video Start Time.

4. Bug Fixes:

Overlapping of the 'Next' button in the enter OTP page. Image attached to this.

'Price Low to High' and in the sort filter in Search results page is not working. Steps to reproduce: 1) In 'Shop' page search for any book 2) The Search Result page will be displayed 3) In this page, we have a 'Sort' filter 4) In this filter we have various filter types like, Price-low to High, Price-High to Low, Name-a to z and Name-z to a. In this the Price filter is not working

'Last Read' option in the filter of 'PAID COURSE' and 'FREE COURSE' tabs in 'My Library' page is not working

When user share a paper from a book and the end user try to open that from the shared link, the page getting zoomed in to half (user can't read the paper completely)

Random crash on Chapter Details Page

Random crash on Media Player
